the tpp was negotiated among 12 economically diverse countries including some most highly developed and rich countries i e the united states japan australia canada new zealand and singapore some newly industrialized countries i e mexico and malaysia and some less developed countries i e peru chile and vietnam a new paradigm created in this context is that countries with vastly different economic developments can actually agree on a set of very high standards to regulate their economic activities to liberalize their trade and to protect intellectual property and foreign investment the contents of the tpp also reflect its status of being a new paradigm as the 21st century trade agreement and being a pioneer in rule making in many key regulatory areas these include not only the

improved and enhanced rules on traditional issues already covered by the wto such as goods services and ip rights but also the carefully designed rules in areas that have never been addressed in the wto or comprehensively covered in other ftas such as state owned enterprises electronic commerce and labor and environmental issues although the united states has withdrawn from the tpp the remaining countries are still putting efforts into establishing a tpp without the united states or a tpp with china economically speaking the current 11 parties account for about 20 of the global economy if such agreement is put into force there will be significant implications for the region for the multilateral system and even for other ftas the book addresses the potential of the tpp to change the ways trade and investments are conducted and argues for its potential to be the start of an international trade economic law revolution the book elaborates the relationship between the tpp and other existing trade agreements such as the wto and other ftas and explains how the tpp is to deal with traditional and new issues taken together the authors argue that the implications of the tpp go beyond its current membership it is hoped that the book will make an important contribution to the field of international economic law

international economic law with its traditional focus on large multinational enterprises is only slowly waking up to the new reality of small and medium sized enterprises smes entering the global marketplace in the wake of the digital revolution smaller companies now play an important role in the global economic landscape in 2015 the un expressly called for smes to have greater access to international trade and investment and it is increasingly recognized that the integration of smes provides one of the keys to creating a more sustainable and inclusive global economy as smes increasingly permeate transnational supply chains so interactions between these companies and international economic law and policy proliferate small and medium sized enterprises in international economic law offers the first comprehensive analysis of the interaction between smes and international economic law this book presents a broad international perspective gathering together contributions by leading experts from academia legal practice and international organizations it opens up a field of enquiry into this so far unexplored dynamic and provide a touchstone for future debate the analysis covers a broad spectrum of international trade and investment law focusing on issues of particular interest to smes such as trade in services government procurement and trade facilitation diverse perspectives illuminate regional developments in particular

within the eu and the implications of mega regional free trade agreements the essays also examine questions of legitimacy of global economic governance in particular concerns surrounding the threat posed to the interests of domestic smes by the growing liberalization of international trade and investment these essays constitute essential reading for practitioners and academics seeking to navigate a previously neglected trend in international economic law
